“ So sorry to hear of Betty Carol's passing. My memories of her go back 68 years, when I was 5 years old, I think. We were both in Miss Lillie's Kindergarten, if memory serves me correct. I remember we played together in the sand box at her house. We spoke briefly about 10 years ago when she was in Palatka. Remembering the family in my prayers.

“ I met BC in the late 70's through a friend, and we all began to hang out together and have so much fun, lots of laughter and comradery among us. BC was the kind of person who would meet you with understanding, empathy, and support no matter what was happening in her life. She made room for everyone in her heart. My deepest sympathies go out to her family and all those who loved her dearly. Rest in peace my friend. Love, Lydia

“ BC was always wearing a big smile and I love when I meet people like that. I knew her as a volleyball mom cheering on Bessie. I didn't realize she was in social work but I bet she was amazing with all of her positive energy.

“ Anyone who met BC loved her, she was one of the most genuine, kind, caring human beings I have known, I am so grateful that she was part of my life. I always thought she would live forever, BC had picked me up hitchhiking to work in 1978 when I lived in Tallahassee and we became forever friends. BC was vibrant, loved the outdoors and lived life, so lucky you all have the many memories of photos of trips together, I will miss BC terribly and i can only imagine the heartbreak and despair of Roy and all the family. I hope Bessie, Katy and Jeremy will always keep her legacy ongoing in their teachings to their children. In memory to my dear friend and 'sister' BC sending my deepest sympathy and hope for peace and comfort with friends and family for Roy and all the family in the days ahead. Rest in peace BC, forever loved Camille and Dennis Drennan

*BC attended my Spirit Group for many years. In fact, she housed the group that met in Crawfordville for a while. She was one of the most authentically sincere human I've ever met.*
