“ *In 2005 I spent several months in Tallahassee due to a family issue; I will best describe Frank as a quite spoken, supportive and kind man. While we did not have many talks, his words always meant something to me.*

“ *My grandmother Goldin was a nurse. When I went into nursing in the 70s, Uncle Frank was always trying to convince me to be a Cardiac Nurse. He thought that they only worked mon-fri. He couldn't understand why anyone would want to work all those nights and weekends like his mother did. I never imagined as that teenager that I would ever be able to play such a crucial part in his last days here on earth. He is flying high with the angels and he will have no more pain. I've loved you all my life but know that you are with many others who love you too! See you in Heaven someday!*
