“ *I worked with Bob at the PBA, My fondest memory with Bob was we went fishing in the Gulf of Mexico during a work day. We were hooking fish, (he always out fished me) and I got a call from the PBA. The servers went down and I said I was on my way. I continue to fish and Bob said don't you need to go in. I said, "Bob the fish are biting" and continue to fish. He wouldn't let me continue and we wrapped it up and went in. He lived by Jesus Christ and never had bad words about anyone, he would just say "that was strange" or "that person was interesting". Bob will be missed dearly and we give our condolences and prayers to his family.*
